

# IMMEDIATE LIFE SUPPORT

## objectives

This course is designed to meet the requirements of ILS courses laid down by UK Resus Council guidelines and is certified by ProTrainings.

The aim is to train healthcare personnel in cardiopulmonary resuscitation, simple airway management and safe defibrillation (manual and/or AED), enabling them to manage patients in cardiac arrest until arrival of a cardiac arrest team and to participate as members of that team. The course is run over one day and consists of lectures and practical sessions. Ratio of one instructor to six candidates.

The content of this and all our courses has been independently certified as conforming to universally accepted Continuous Professional Development (CPD) guidelines and come with a Certified CPD Statement as well as a Certificate and for online courses an Evidence Based Learning statement.
