

First Aid at Work Requalification Level 3 (FAAWR)

The First Aid at Work Requalification Level 3 is ideal for most businesses whose risk assessment has identified that they require a fully trained first aider for their workplace. Candidates require a current FAAW Certificate to complete the two day requalification course.

This course will enable students to get help and give safe, prompt and effective First Aid to a casualty in the workplace following an injury or illness using materials to hand and HSE approved first aid equipment.

Available as a blended option.

The syllabus includes:

- The Role of the First Aider
- First Aid Equipment
- Patient assessment
- Trauma management
- Manage catastrophic bleeding
- Assess and manage patient's airway
- Health and Safety Regulations
- Manage a patient with head and spinal injuries
- Manage a patient with injuries to bones, muscles and joints
- Adult Basic Life Support and AED training
- Environmental emergencies
- Minor illness and injury
- Medical emergencies

Duration: 2 days.

Entry Criteria: No prior qualifications required.

Certification: FAAW Level 3. Valid for 3 years.
